

Speech Practice in a Box

You may have some fun by creating a "speech box" that you can use to practice your speech. Here is what you need to do:

- 1. Get a box of some kind. Cut an opening into the box that allows you to fit your hand into the box. If you can not find a box, you could use a bag or other container.
- 2. If you wish, decorate your box
- 3. Find things around the house that have your speech sound, and place them in the box. You can also use magazine pictures, cards, clip art pictures etc.
- 4. Each day, use the box to practice. You may do any of the following:
  - o play a guessing game-describe an item and have a friend guess what it is
  - o pull objects and say a sentence about them
  - o hide objects around the room and describe to a friend where to find them
  - choose items from the box, lay them out, then hide them back in the box.
    Have a friend try to remember the items you pulled out.
  - o Try to name all the items in the box without looking at them
  - o use your imagination to think of other ways to practice
- 5. From time to time, remove items from your box and replace them with new items.
- 6. Use the attached sheet to list each day that you practice with the box of items.

## <u>List the items here that you have placed into your box for practice:</u>

## I practiced my good speech using my bag or box of things:

Date	What did you do?	How many good speech
Date Practiced		How many good speech sounds did you use?
